WORK EXPERIENCE

Career break for independent travel, Mar 2026 - Present

Lead Strategic Account Manager

JustCall (SaaSLabs)

Internal move from scaled CS leadership to build the Account Management function for the strategic portfolio.

Oct 2024 - Feb 2026 | Bengaluru, India

- Built JustCall's Account Management function for a **$13M+ portfolio of 1,100+ strategic clients**, designing a repeatable expansion model with CS leadership.
- Led **revenue planning and deal governance for APAC and EMEA**, building the forecasting and quota model (35% win rate) and approving every proposal, discount and custom bundle in Salesforce.
- Ran an **AI-led adoption and expansion program across 7,000+ customers**, testing campaigns manually for a quarter before automating them in HubSpot, Zapier and n8n, generating **$2M+ in qualified pipeline** at **25%+ open rates**.
- Led an **AI Voice Agent implementation for Nexford** with country-specific pricing, scholarship logic and HubSpot tagging, bucketing **85%+ of inbound leads accurately** in testing and closing a **$60K expansion**.
- Set up the reporting the team ran on: **ChurnZero, Tableau, HubSpot and Salesforce dashboards** for NRR, churn, expansion, at-risk and upside accounts, and live deals against quota.
- Personally owned renewals and expansion for a **$1.2M ARR EMEA book of 90 strategic accounts**, consistently achieving **100-140% of quarterly revenue targets**.
- Hosted launch webinars such as Build an AI Voice Agent in Under 10 Minutes, with GTM collateral and a launch upsell strategy that helped reps build early pipeline.

Team Lead, Customer Success (Scaled)

JustCall (SaaSLabs)

Joined after a travel break in 2023 to build JustCall's Scaled Customer Success vertical; promoted to Team Lead within 8 months.

Jan 2024 - Oct 2024 | Bengaluru, India

- Built the **Digital CS operating model for an $8M ARR PLG segment** (5,000+ accounts, 40% of company ARR at the time), including systems, processes and team structure.
- Turned research on **500+ accounts into an LLM dataset** that powered health scoring, account prep and CSM training (4 weeks to 3), and informed ICP and pricing.
- Drove **segment NRR from 85% to 97%** by focusing CSMs on growth and risk accounts and reaching low-touch accounts with personalised bulk outreach.
- **Scaled CSM coverage from 1:800 to 1:1,200+ accounts** with predictive health scores and AI account insights for faster reviews and meeting prep.
- Cut **90-day logo churn from 40% to 22%** by tightening ICP criteria with Marketing, filtering out low-fit signups before onboarding and protecting downstream margins.
- Built a centralised engagement process for all existing-customer communication across GTM teams, with campaign governance, performance tracking and weekly reporting.
- Led and coached **10 CS Associates** (up to 6 at a time), designing their **quarterly variable pay plan** with KPI weights and attainment slabs, and development paths into strategic roles.

WORK EXPERIENCE

Product Success Manager
Sprinklr
Managed adoption, retention and growth for global enterprises in the US and Europe for the Sprinklr Social vertical. Promoted from Platform Specialist to Product Success Manager within 10 months.
May 2021 - May 2023 | Remote (India)

- Managed a **$4.6M ARR enterprise portfolio** across Healthcare, Finance, Tech and F&B, partnering with Marketing and Operations leaders to hold **94%+ NRR** against an 85% benchmark.
- Turned a **$1.2M at-risk RFP** for the American Heart Association into a **3-year renewal with 220% contract growth**.
- Ran success plans across adoption, engagement, relationship health, upsell and competitor takeout, reaching 87% license consumption and 66% feature adoption.
- Designed a gamification model for an insurance client's 15,000+ field agents, **lifting platform adoption by 71% in 3 months**.
- Awarded Star Performer of the Quarter for 100% NRR in Q3 2022.

Associate Consultant
Capgemini
Delivered enterprise transformation and process improvement initiatives, leading ERP integration, change management and operational analytics.
Aug 2018 - May 2021 | Mumbai, India

- Led **SAP ERP integrations and change management for Panasonic Automotive** (US and Japan) with a team of 4.
- Generated **$120K in expansion revenue** by pitching 3 product enhancements that client leadership approved.
- Cut production errors by 40% in a quarter by standardising the change review and approval process across teams.
- Built a real-time KPI dashboard for client leadership, improving visibility and lifting client CSAT by 12%.
